

Tying rebar takes hand-eye coordination, time and finesse. Think you've got what it takes?

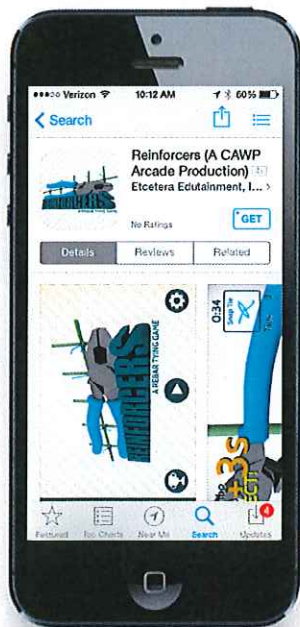

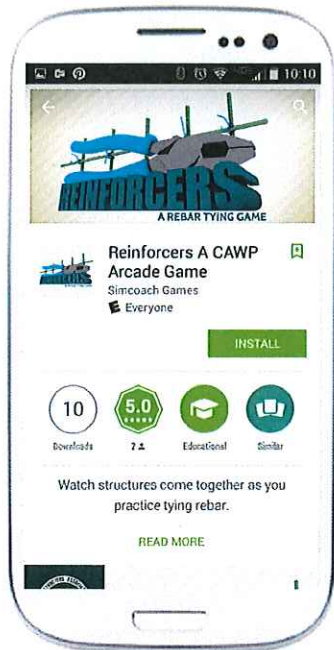

LABORERS' DISTRICT COUNCIL OF WESTERN PENNSYLVANIA

A REBAR TYING GAME

# REINFORCERS Gaming APP

## A REBAR TYING GAME

CAWP, in conjunction with the Laborers' District Council of Western PA, has launched another fun and addictive gaming app to promote careers in the highway construction Trades.

Reinforcers introduces players to the world of concrete and rebar. During the game, players learn and practice the basic methods for three different types of rebar ties. As you advance through the game, structures come together as you tie more rebar. Efficiency is important and so is speed.

Test your skills, right on your mobile device, with this newest addition to the CAWP Arcade.

The Reinforcers APP is available now for Android and Apple devices.

app created by **simcoach**GAMES

CAWP is a trade association for union affiliated contractors in the heavy, highway, railroad and utility construction industry in western Pennsylvania and a chapter of the Associated General Contractors of America.
